Proceedings of
The 2009 European LAMS & Learning Design Conference:
Opening up Learning Design
July 6-9, 2009
Milton Keynes, United Kingdom
## Contents

### Welcome

6

### Acknowledgements

7

### Conference program

8

### Keynote addresses

11

- Learning design at the OU – visualising, guiding and sharing designs
  - Grainne Conole

- The evolution of Learning Design: From pedagogic neutrality to good teaching ideas
  - James Dalziel

### Abstracts

14

- LAMS in TESOL: Sketching potential
  - Dr Chris Alexander

- Codifying the DiAL-e Framework: Making learning designs accessible for reuse
  - Simon Atkinson & Kevin Burden

- Design for Learning: Making educational sense in digital contexts
  - Helen Beetham

- Developing Adaptive Tutorials using LAMS and AeLP
  - Dror Ben-Naim & Ernie Ghiglione

- Layered learning design – linking Generative Learning Objects and LAMS sequences
  -
Tom Boyle, Musbah Sagar, Martin Agombar, Nils Millahn
Visualising processes and products for activity and curriculum

Welcome

Welcome to all our delegates for the 2009 European LAMS & Learning Design Conference held at the Open University, Milton Keynes, UK on July 6-9th, 2009. For this conference, we have changed the conference title to include not only LAMS but Learning Design in general - this broader focus has, in fact, been true of all previous conferences, but we're pleased to now acknowledge this in the official title - and we appreciate both past and present contributions of those who work in the wider Learning Design field.

We were again pleased at the response to the call for proposals and the special focus given to "Open Approaches" to Learning Design. The variety of papers and presentations in the program should provide an interesting conference for all delegates. As with our previous conferences, we hope to make slides and audio recordings available after the event to provide a record for those who could not join us in person at the time.

We are pleased to welcome Gráinne Conole as a Keynote Speaker - Gráinne and colleagues at the Open University have been conducting important new work into capturing good pedagogical approaches as Learning Designs, so it will be an ideal opportunity to gain an overview of this work.

A special thank you once again to the Review Committee for giving their time to assess presentation proposals and to peer review submissions for the conference proceedings. We gratefully appreciate their time and very thoughtful comments. Special thanks to Leanne Cameron for leading the organisation of the conference from both academic and practical perspectives, to Renee Vance for her tireless logistical and practical support, to Bill Chan for support (especially with production of this proceedings), to Macquarie University (on behalf of the LAMS Foundation) for sponsorship and support, and to Gráinne Conole, Janet Dyson and colleagues at the Open University who have helped make this conference possible.

We hope you have an informative and enjoyable time at the conference, and look forward to interesting discussions and collaborations in the future!

Professor James Dalziel

on behalf of the Conference Organising Committee
Acknowledgements

Conference Organising Committee

The LAMS Conference Organising Committee would like to thank all the authors, presenters, reviewers, sponsors, technical support team and other conference helpers, for their time and efforts in ensuring the conference came to fruition. We would also like to thank the Open University for the use of the venue for the conference.
